RE: DRC 2013-00096, Kiler Ridge Olive Farm, Bone/Burnam

Dear Commissioner Campbell,

Hopefully you have received my proposed changes to the conditions of approval for the Kiler Ridge Olive Farm project. Condition #29 was briefly discussed at the hearing in May. If you have questions regarding this condition, since it addresses an issue the Commissioners have not addressed to date, please contact me to discuss.

Also, it is my understanding that the Commissioners requested that a representative from the Air Pollution Control District, APCD, give a presentation on dust suppressants. Our research shows that if the base is properly prepared, chemical dust suppressants work. However, Michael Fredericks will be available to speak regarding the paving options presented in condition #27.

If you have any questions, I can be reached at 805-801-0453 or at [planningsolutions@charter.net](mailto:planningsolutions@charter.net)

Regards,

Pamela Jardini, J.D.
